- Notepads
- Buckles (Jim Holtz) approx \$6
- Word Bands (Jim Holtz) approx \$8
- Leather Strap
- Brad Fasteners (Spare Parts)
- Jute & Needle
- Stapler

NO SEW NOTEPAD CARPET COVERS

HOW TO • MAKE A NOTEPAD COVER

- 1 Measure the width of the notepad you're going to use. Add up measurements from width formula above.
($\frac{1}{2}$ " + width + $\frac{1}{2}$ " + width + $\frac{1}{4}$ " = width formula for carpet cover)
- 2 Measure the height of the notepad you're going to use. Add up measurements from height formula above.
($\frac{1}{4}$ " + height + $\frac{1}{4}$ " = height formula for carpet cover)
- 3 Cut a carpet piece the height & width of formula measurements. No sewing required.
- 4 Cut leather strap piece 4" long. Cut one leather end into a point. Pierce a hole in the other end of strap. Thread a brad fastener through the hole and punch another hole through the carpet cover in the back. This attaches strap to back of cover.
- 5 Take buckle and brad fastener. Insert brad through buckle hole and pierce into carpet. Bring leather strap around to front. At point end of the leather, cut a slit for the buckle tongue to fit into.
- 6 Take a word band and jute string. Tie band to carpet cover
- 7 Staple the notepad (through the cardboard back) onto the inside of carpet back. Staple 2 - 4 times spreading staples out. Another option is to attach notepad with brad fasteners.
